

For♦Mor Compensation Plan Illustrated

This illustration of a Diamond Distributorship is for educational uses only.

Qualify for first and second level commissions with \$114 BV monthly. **15%**

45%

Infinity Bonus Program – **Up to 10%**

For♦Mor International pays 10% Infinity Bonus

- ♦ Qualifying as Ruby earns 3%
- ♦ Qualifying as Emerald earns 6%
- ♦ Qualifying as Diamond earns 10%

The third level is “unblockable.”

Starting on the fourth level, the infinity bonus is paid until another downline distributor also qualifies for some or all of the 10% bonus.

If the upline qualifies for a higher % of the bonus than the downline, the upline receives the difference .

In the illustration, the Ruby begins earning a 3% bonus on level 5. The diamond is qualified to receive 10%, and receives the difference of 7%

The Emerald qualifies for 6% on level 7, and the diamond receives the difference of 4%

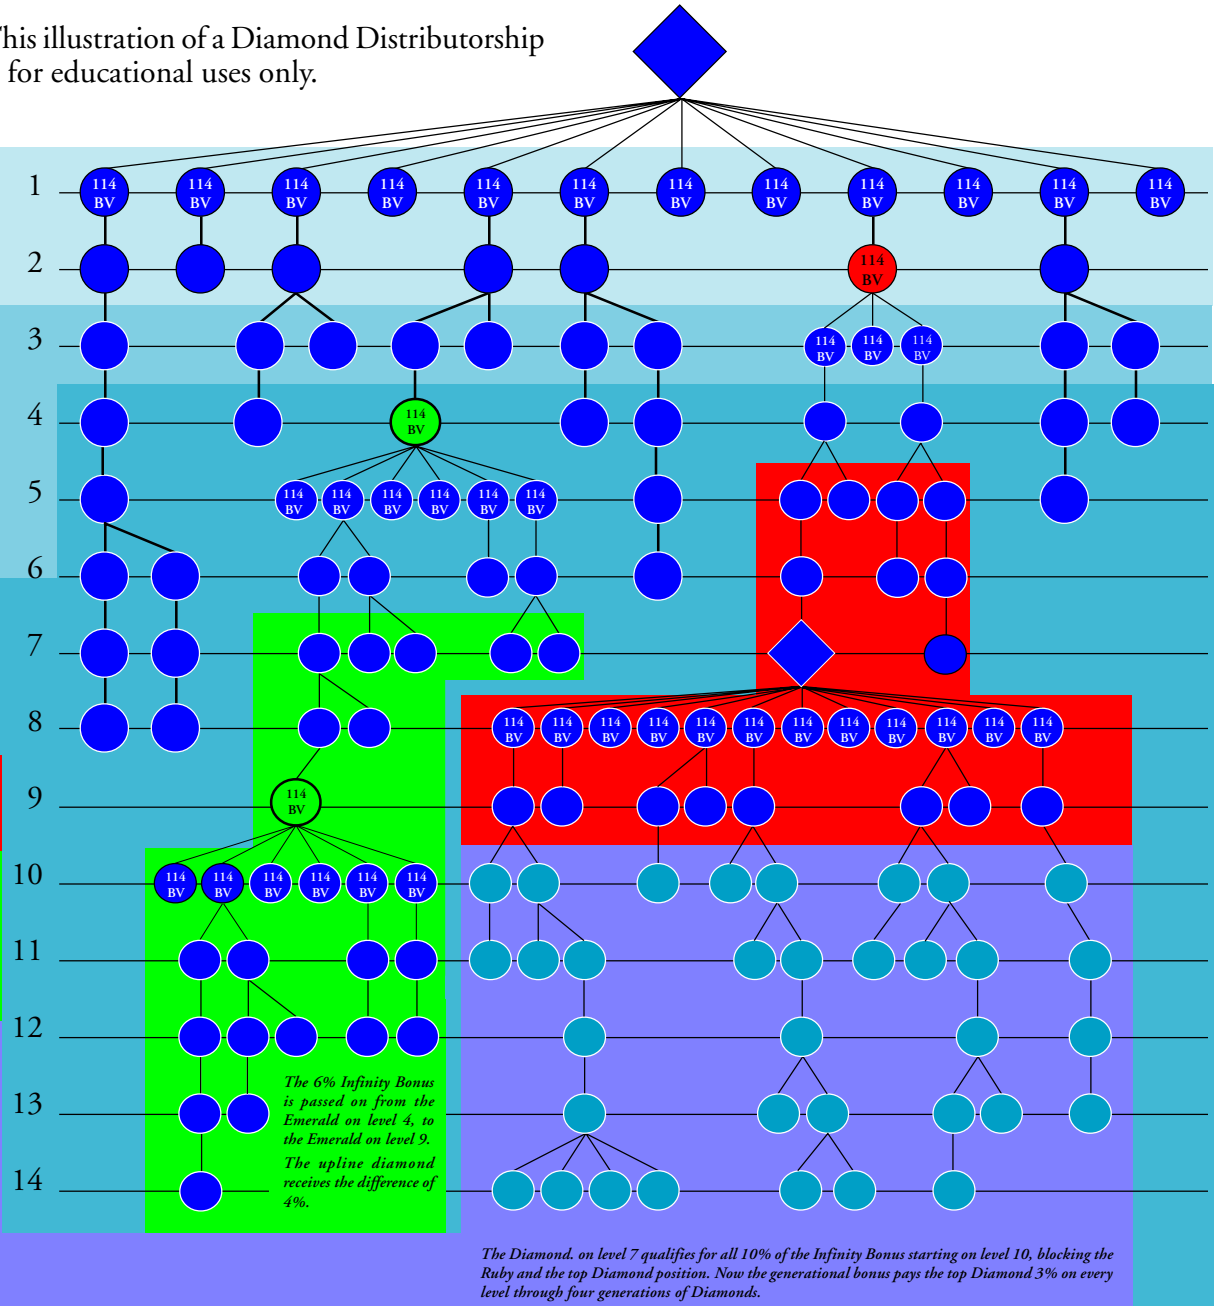

The Emerald on level 9 qualifies to receive 6% starting on level 12, blocking the upline Emerald's bonus. The top Diamond position still receives the difference of 4%

3% Bonus thru 4 Generations

When a Diamond blocks another Diamond from the Infinity Bonus, the Generational Bonus begins.

For♦Mor International pays Diamonds 3% on every level, down through four generations of diamonds.

The Generational Bonus creates wealth and stability for Diamonds by paying deep into the organization.

The 6% Infinity Bonus is passed on from the Emerald on level 4, to the Emerald on level 9. The upline diamond receives the difference of 4%.

The Diamond, on level 7 qualifies for all 10% of the Infinity Bonus starting on level 10, blocking the Ruby and the top Diamond position. Now the generational bonus pays the top Diamond 3% on every level through four generations of Diamonds.
