

Retail Rebate Enhancement

For♦Mor International Introduces Automatic Retail Rebate

It's even easier to make money when you retail For♦Mor products!

Now you maximize your profitability by ordering all products through one ID number. There is no need to maintain two separate positions to maximize your profits. The retail rebate enhancement optimizes your earning potential.

- For♦Mor's computer system credits your first \$114 BV of the month to qualify you for downline bonuses.
- Additional volume over \$114 to \$228 BV automatically creates a 2nd position, paying you a 15% rebate in your bonus check. \$114 BV in Position 2 counts to qualify you for ruby, emerald, or diamond.
- Any volume over \$228 BV for the month automatically creates Position 3, earning you a total of 60% rebate on BV . . . WOW!!!

Perfect for:

- Retail establishments,
- Part-timers on a budget,
